

# Refactoring strategy

## Part 1

Write  
solid  
unit tests

## Part 2

Identify  
code  
smells

take small  
refactoring  
steps

run the  
tests

## Part 3

take small  
refactoring  
steps

run the  
tests

## Part 4

Implementation  
patterns

run the  
tests

## Part 5

Design  
patterns

run the  
tests

## Part 6

move unit  
tests  
into each  
subclass

run the  
tests

## Code smells & refactoring actions
