

Refactoring strategy

Part 1

Write
solid
unit tests

Part 2

Identify
code
smells

take small
refactoring
steps

run the
tests

Part 3

take small
refactoring
steps

run the
tests

Part 4

implementation
patterns

run the
tests

Part 5

Design
patterns

run the
tests

Part 6

move unit
tests
into each
subclass

run the
tests

Code smells & refactoring actions
